

List for the next lorry: April/May 2024

Our dear friends,

Everything on the last list is still desperately needed, but we were prompted to make a special list after Tina's recent trip to Kherson. There she met 2 doctors working on the front line, with a list of special needs for the men and women working there with them.

Here it is:

A first aid kit for each one.

2 T shirts for each person, short sleeved, black or khaki.

Black socks and briefs;

Shampoo and soap;

Instant food to fit into a pocket, to be made up with hot water or eaten from the tin;

Chocolate bars;

Coca Cola and energy drinks,

Sanitary wear for the women;

Tourniquets;

Generators.

And an ambulance! (We did it before...). They are having to take killed and injured people off the front line in a car. So quite a tall order for us all. As Tina always says, and it is so true, many small donations make a big one.

Easter is approaching so another request: Tina says she is going to take 1,000 Easter eggs off to the children in Ukraine! Knowing her, she'll do it!

Please do not despair if you have started knitting baby clothes, or gathering something off our last list. All items are still needed. It's all a bit overwhelming, but we must just do what we can, or take a break if we can't help this time.

With our love,

Gay and Mike and Nadia.
